PALLET JACK

Atlas Mega Steel manufactures the highest quality, full-line assortment of material handling and storage equipment in the industry. Our products combine years of proven engineering with the latest technology and supply chain practices. With manufacturing plants strategically located throughout the world, we can provide the right solution for every storage application. By maintaining a strong economic focus along with our commitment to the most stringent quality standards, Atlas Mega Steel is your complete global storage solution.

PALLET JACK

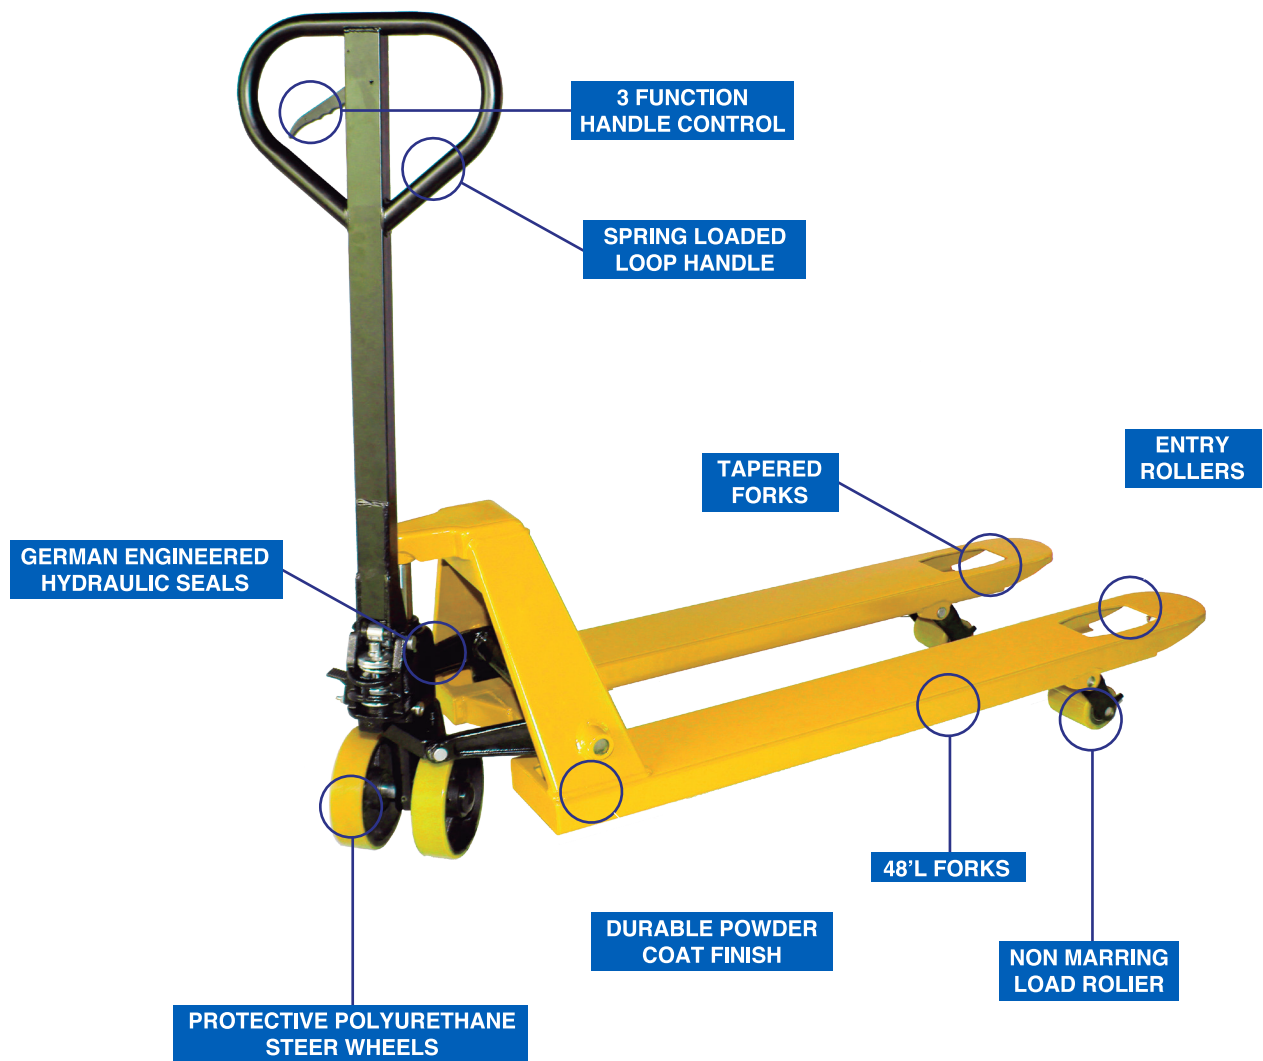

Pallet jacks are manually operated used for moving one or more pallets at a time. Pallet jacks can be used in virtually any situation where pallets need to be moved. We have several models of pallet jacks, depending on the application required: light duty, heavy duty, narrow, low profile, transverse (4 way).

ADVANTAGES

- Standard epoxy powder coat finish.
- 1 Year Limited Warranty.
- Exceptionally strong but light weight steel construction.
- Welded joints and reinforced fork tips for maximum durability in toughest applications.
- 3 Position hand control, raise lower, neutral.
- Reliable oil leak-proof hydraulic system.
